

Laboratory Audit of (lab name and lab identifier):						
ISO/IEC 17025 Cert. identifier: [see OCM opening / closing conference form]						
Audit/Inspection Date(s): [see OCM opening / closing conference form]						
OCM Auditor(s)/Inspectors: [see OCM opening / closing conference form]						
Part 130 – Cannabis Laboratories						
ID	Citation	Does the laboratory comply with this section?	Yes	No	N/A	Notes
This checklist is based on NYS OCM Part 130 - Cannabis Laboratories and NYS OCM Cannabis Laboratory Quality System Standard (LQSS) and Testing Limit Document.						
General Cannabis Laboratory Requirements - Changes in owner, technical direction, location, sampling process, sampling technicians, vehicles, etc.						
1	§ 130.12 (d)	Notify the Office in writing whenever the term of such temporary technical director designation exceeds thirty-five (35) consecutive calendar days.				
2	§ 130.19 (j)	For those labs that are an approved sampling firm, submit an application upon a significant change in the sampling process or procedure, change in employees who perform sampling and transportation and change in vehicles used in transportation, provided a re-application has been made in writing to the Office within thirty (30) calendar days of the change.				
3	§ 130.29 (a) (1) and § 130.7 (f)	Disclose and submit an application for a change in laboratory ownership, major instrumentation, technical direction, or location.				
General Cannabis Laboratory Requirements - ISO/IEC 17025 accreditation, proficiency tests, testing capacity, disposal of cannabis, etc.			Yes	No	N/A	Notes
4	§ 130.7 (a) and § 130.10 (a)	Maintain ISO/IEC 17025 accreditation, or an accreditation that is based on ISO/IEC 17025 accreditation by any other laboratory accreditation authority approved by the Office.				
5	§ 130.7 (b)	Participate in ISO/IEC 17043 approved proficiency tests every 6 months (+/- 30 days) and have successfully passed two (2) out of the most recent three (3) proficiency tests as part of the permit requirements				
7	§ 130.7 (g)	Dedicate a percentage, as determined by the Board, of its testing capacity to licensees that are businesses with limited resources as determined by the Office, and to registered organizations for medical cannabis product testing				
8	§ 130.7 (i)	Track and dispose of any quantity of cannabis product that is not consumed in samples used for testing. Disposal = rendered unrecoverable and beyond reclamation.				

General Cannabis Laboratory Requirements - ISO/IEC 17025 accreditation, proficiency tests, testing capacity, disposal of cannabis, etc.			Yes	No	N/A	Notes
9	§ 130.7 (k)	To the extent practicable for efficient operations of the laboratory, test samples in the order they were received.				
10	§ 130.8 (f)	To maintain approval for a given analyte or group of analytes on its permit, a cannabis laboratory shall attain satisfactory performance as determined by the Office, in at least two (2) of three (3) consecutive scheduled or unscheduled or supplemental proficiency test in which it has participated in an eighteen (18) month period.				
11	§ 130.9 (a) (1) - (2)	A cannabis laboratory fails two (2) out of three (3) most recent proficiency tests attempted for a particular analyte or group of analytes; or a cannabis laboratory fails to provide a corrective action report to the Office within thirty (30) calendar days of a request for a corrective action report from the Office.				
Laboratory Regulatory Audit			Yes	No	N/A	Notes
12	§ 130.10 (b)	Have a laboratory regulatory audit every two (2) years during a cannabis laboratory's normal business hours				
13	§ 130.10 (c)	Include <u>adequacy of facilities and equipment</u> , appropriateness of <u>sampling protocols</u> , <u>use of approved methods</u> , and a cannabis laboratory's quality system, including, but not limited to, <u>quality assurance and quality control procedures</u> , and <u>record keeping and reporting practices</u>				
14	§ 130.10 (d)	Demonstrate effective implementation of its quality system for planning and assessing work performed by a laboratory regulatory audit, and for conducting required quality assurance and quality control procedures to promote and maintain the accuracy and reliability of test results.				

General Cannabis Laboratory Quality System Standards			Yes	No	N/A	Notes
15	§ 130.10 (c) and LQSS Section III	A quality manual or equivalent is established and maintained with required topics not limited to:				
16	§ 130.10 (c) and LQSS Section III 11) a.	Organizational structure and ownership, including any organizational charts				
17	§ 130.10 (c) and LQSS Section III 11) u.	Corrective actions, including root-cause analysis				
18	§ 130.10 (c) and LQSS Section III 11) v.	If any complaints were received, evaluation of process was conducted.				
19	§ 130.10 (c) and LQSS Section III	Internal audits must include both the audit of administrative and technical procedures, and it must be performed on at least an annual basis .				
20	§ 130.10 (c) and LQSS Section III 11) x.	Management reviews must be performed on at least an annuals basis, and they must be distributed to upper management and address the following criteria: the suitability of policies and procedures; reports from managerial and supervisory personnel; the outcome of recent internal audits; corrective and preventive actions; audits by external bodies; the results of interlaboratory comparisons or proficiency tests; any changes in the volume and type of work undertaken; feedback from clients; complaints; and other relevant factors, such as quality control activities, resources and staff training.				
21	§ 130.10 (c) and LQSS Section III 11) aa.	Any master list of documents related to controlled documents, equipment inventory, vendors, and consumables, tables, figures, and appendices.				

General Cannabis Laboratory Personnel Qualifications			Yes	No	N/A	Notes
22	§ 130.11 (a)(2) and LQSS, Section III	Develop and implement an employee training program, which shall include but not be limited to, a <u>training checklist</u> , and an <u>initial and continuing demonstration of capabilities</u> , to ensure competency of a laboratory employee for their assigned functions;				
23	§ 130.11 (a)(5) and LQSS, Section III	Ensure an employee completes <u>data integrity training</u> upon hire and annually thereafter , and evidence that such training was performed				
24	§ 130.12 (a) -(b)	One or more technical directors, who shall be full time members of the laboratory's staff, and who shall exercise actual supervision of laboratory operations, including the reporting of results from testing samples, during normal business hours and shall supervise only the areas of testing for which they meet the qualifications required by this section				
25	§ 130.13 (a) & (d)	A cannabis laboratory shall appoint a quality assurance officer, who shall exercise oversight of a cannabis laboratory's quality system during normal business hours. The quality assurance officer shall fulfill their functions independently from cannabis laboratory operations for which they maintain quality assurance oversight.				
Approval of Laboratory-Developed Methods			Yes	No	N/A	Notes
26	§ 130.15 (a) and LQSS, Section VII	Obtain approval from the Office prior to performing a <u>laboratory-developed method</u> , or other method not otherwise approved or given similar recognition as described in this Part				

Testing of Cannabis Product and Medical Cannabis			Yes	No	N/A	Notes
27	§ 130.22 (a) (1)	Be within the scope listed on the laboratory's current permit or on any appendices thereto				
28	§ 130.22 (a) (2) and LQSS, Section III	Require the prior completion of a <u>demonstration of capability</u> conducted at the same site where samples were prepared or analyzed using an approved method				
29	§ 130.22 (b), LQSS, Section VIII and OCM Testing Limit Document (a)	Include testing of the phytocannabinoid profile in cannabis product and or medical cannabis				
30	§ 130.22 (c), LQSS, Section VIII and OCM Testing Limit Document (b)	Include, but not be limited to, microorganisms, foreign material, metals, moisture content and water activity, mycotoxins, pesticides, residual solvents, terpenoids, and any other analyte or group of analytes determined by the Office, consistent with the acceptable limits .				
Certificate of Analysis			Yes	No	N/A	Notes
31	§ 130.23 (a)	Prepare a certificate of analysis which shall include a summary of analytical results of the testing				
32	§ 130.23 (b)	Issue confidentially the certificate of analysis to its client				
33	§ 130.23 (c)	Report all results of tests that a cannabis laboratory performs directly to the Office in a manner and format determined by the Office				
34	§ 130.23 (d)	Report results to the Office within forty-eight (48) hours of release of the certificate of analysis to a client				

Certificate of Analysis			Yes	No	N/A	Notes
35	§ 130.23 (e) and OCM Testing Limit Document	Include, but not be limited to, the following: (1) a title; (2) cannabis laboratory name, contact person, phone number, and address; (3) office laboratory permit identifier; (4) permit identifier issued by ISO/IEC 17025 accreditation, or accreditation that is based on ISO/IEC 17025 accreditation by any other laboratory accreditation authority approved by the Office; (5) client name, contact person, phone number, and address; (6) description or unique identification of sample(s) tested; (7) methods used; (8) analyte or group of analytes tested, analyte results and units of measurements; (9) sample collection site, date and time; (10) analysis date and time; (11) any deviations from approved sampling, transportation and testing methods; (12) reference to approved sampling and transportation operating procedures; (13) name, signature and date of individual approving the release of the reported results; (14) regulatory limits established by the Office; (15) laboratory reporting limits; (16) any non-approved methods or analyte or group of analytes reported; (17) any methods used and analyte or group of analyte results reported by another OCM permitted cannabis laboratory; (18) pagination of the report if greater than one (1) page in length; and any other information requested by the Office.				
36	§ 130.23 (f)	An incomplete, verbal or informal certificate of analysis shall not be released by a cannabis laboratory without the written approval by the Office				
37	§ 130.23 (g)	Any amendments to a certificate of analysis after issuance be reported in a revised or amended certificate of analysis, and the amendments clearly noted and statement on the certificate to which report was superseded.				

Reporting of Results			Yes	No	N/A	Notes
38	OCM LQSS, Section VIII	Prior to reporting the results, all results must be reviewed. The review of the results must be documented.				
39	OCM LQSS, Section VIII	Potency (as mass/dose or mass/serving, mass/mL (beverages) and %)				
40	OCM LQSS, Section VIII	Moisture Content (as %)				
41	OCM LQSS, Section VIII	Metals (as ug/g, ppm, ug/mL (beverages))				
42	OCM LQSS, Section VIII	Mycotoxins (as ug/g, ppm, ug/mL (beverages))				
43	OCM LQSS, Section VIII	Microbiology (as cfu/g or cfu/mL)				
44	OCM LQSS, Section VIII	Pesticides (as ug/g, ppm, ug/mL (beverages))				
45	OCM LQSS, Section VIII	Residual Solvents (as ug/g, ppm, ug/mL (beverages))				
46	OCM LQSS, Section VIII	Water Activity (as aw)				
47	OCM LQSS, Section VIII	Terpenes (as %)				
48	OCM LQSS, Section X and OCM Testing Limit Document	A laboratory must follow the rounding procedures specified in latest edition of Standard Methods, Section 1050B.				
49	OCM LQSS, Section X and OCM Testing Limit Document	Microbiology (qualitative) - as present or absent in mass or volume				
50	OCM LQSS, Section X and OCM Testing Limit Document	Microbiology (quantitative) - retest if result is TNTC or >490,000 cfu				
51	OCM LQSS, Section X and OCM Testing Limit Document	Water Activity (as aw) - two (2) significant figures				
52	OCM LQSS, Section X and OCM Testing Limit Document	Moisture Content (as %) - nearest tenth				
53	OCM LQSS, Section X and OCM Testing Limit Document	Filth and Foreign Material - Mammalian excreta (as mass (mg) per pound))				
54	OCM LQSS, Section X and OCM Testing Limit Document	Filth and Foreign Material - Foreign material (as an average %)				

Reporting of Results			Yes	No	N/A	Notes
55	OCM LQSS, Section X and OCM Testing Limit Document	The terpenoids shall be reported in a percentage (by weight). Percentage reported must be based on the readability of the analytical balance used to prepare samples for terpene analysis. For example, a sample was weighed on a balance that reads to 0.001 g; therefore, the result must be reported to 0.001%.				
Sample Chain of Custody			Yes	No	N/A	Notes
56	§ 130.25 (b)(1)	Use the COC to record, at a minimum, the following information for a sampled batch: permitted cannabis laboratory's name, permitted premises address, and permit number;				
57	§ 130.25 (b)(2)	date and time sampling started and ended;				
58	§ 130.25 (b)(3)	name of the licensee requesting the sampling, licensed premises address, and license number;				
59	§ 130.25 (b)(4)	(4) batch number of the batch from which the representative sample was obtained and assigned unique sample identifier;				
60	§ 130.25 (b)(5)	(5) sample type;				
61	§ 130.25 (b)(6)	(6) total batch size, by weight, or unit count;				
62	§ 130.25 (b)(7)	(7) total weight, or unit count of the representative sample;				
63	§ 130.25 (b)(8)	(8) sampling and transportation conditions or problems encountered during the sampling and transportation process, if any;				
64	§ 130.25 (b)(9)	(9) printed name and signature of the licensee requesting the sampling; and				
65	§ 130.25 (b)(10)	(10) printed name and signature of the laboratory sampling firm employee and name of laboratory sampling firm.				
66	§ 130.25 (c)	At each point a sample changes custody, is transported, or is destroyed, the date, time, and the names and signatures of persons involved in these activities shall be recorded on it				

Record Retention			Yes	No	N/A	Notes
67	§ 130.26 (a)(1)-(4) and LQSS, Section IX	Retain the following records, current, previous, and archived versions, either electronically or hardcopy, for no less than five (5) years and identify accurately and reliably: (1) the samples transported, collected, accepted, prepped, examined, and disposed of; (2) procedures used and personnel involved; and personnel training records; (3) document test conditions, observations, and results of analyses; and (4) all quality system related records including, but not limited to: (i) quality manual or equivalent quality management documents; (ii) standard operating procedures; (iii) internal audits; (iv) management reviews; (v) corrective action reports; (vi) analytical logbooks; (vii) equipment logs; (viii) consumable logs; and (ix) purchasing records.				
68	§ 130.26 (b) and LQSS, Section IX	In the event it goes out of business or ownership is transferred to another permitted cannabis laboratory, have a plan or procedure in place to ensure all associated records are maintained for not fewer than five (5) years.				
Security, Safety and Storage of Cannabis			Yes	No	N/A	Notes
69	§ 130.27 (a)	Lab - Have a security system to prevent and detect diversion, theft or loss of cannabis, utilizing commercial grade equipment.				
70	§ 130.28 (b)	Lab - Keep security equipment in full operating order and test such equipment no less than semi-annually. Records of security tests must be maintained for five (5) years				
71	§ 130.29 (c)	Lab - Be securely locked and protected from unauthorized entry at all times.				
72	§ 130.30 (d)	Samples - Be stored in a secure area or location within a cannabis laboratory that is accessible to a minimum number of employees essential for efficient operation, to prevent diversion, theft or loss				
73	§ 130.31 (e)	Samples - Be stored in such a manner as to protect against physical, chemical and microbial contamination and deterioration until extraction and analyse
